## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 10 HANFORD PROJECT OFFICE  
712 SWIFT BOULEVARD, SUITE 5  
RICHLAND, WASHINGTON 99352

October 21, 1994

Mrs. Vera M. Wilson  
2880 Five Mile Rd.  
The Dalles, OR 97058

Dear Mrs. Wilson:

Thank you for expressing an interest in the Environmental Restoration Disposal Facility (ERDF). I have enclosed a copy of the ERDF Proposed Plan for your information.

The proposed location for the facility is on the Hanford Site Central Plateau between 200 East and 200 West. A map of the proposed location is provided within the Proposed Plan.

The Hanford Site waste management operations currently send hazardous waste to the Chem Waste facility in Arlington OR. The proposed facility would provide adequate space for the disposal of only Hanford cleanup waste. The cleanup waste may include hazardous, low-level radioactive or mixed (low-level and hazardous) waste. The decisions for waste disposal are made by the managers of each waste site. The public will have the opportunity to comment on where waste from each cleanup activity will be disposed.

Public meetings for the ERDF will be held in conjunction with the Environmental Restoration Refocusing meetings. The meeting held in your area will be at the following location:

November 14 - Hood River, OR  
Hood River Inn  
1108 E. Marina Way  
Time: 7:00 - 9:30 p.m.

Written comments on the proposed facility may be sent to me at the above address. If you have any additional questions, please call me at (509) 376-4919.

Sincerely,

*Pamela D. Innis*

Pamela Innis  
ERDF Project Manager
